## **Local Prevention Groups Agree with Attorney General on Proposed Flawed Constitutional Amendment**

SAINT PETERSBURG, FL (October 24, 2013) – Calvin Fay, Executive Director of both Drug Free America Foundation and Save Our Society From Drugs, commented today on Florida Attorney General Pam Bondi’s opinion on trial lawyer John Morgan’s proposed constitutional amendment that seeks to legalize marijuana under the guise of medicine.

“It is abundantly apparent that this group led by Mr. Morgan seeks to do exactly what has been done in some of the other states – confuse the voters and dupe them into voting for drug legalization under the guise of compassion,” stated Fay.

“Whether one believes marijuana is medicine, is not the issue. The real issue here is that this proposed amendment is extremely flawed and wide open to significant abuses. It has so many loopholes, you could drive a Mack truck through it! It is a dangerous proposal on all fronts. It makes a mockery out of our nation’s process for determining safe and effective medications, as well as endangers our state constitution. Our constitution should be protected and not sold to special interests who think that they can purchase changes in it that are not in the best interest of the rest of us,” Fay continued.

“Drug Free America Foundation and Save Our Society From Drugs are proud to stand in agreement with Attorney General Pam Bondi’s opinion,” Fay concluded.
